## MAINTENANCE AND CARE

### SYNTHETIC WEAVE

For our all-weather outdoor collection, we use multiple synthetic materials, including polyethylene, polypropylene, HDPE wicker and HPL.

All our synthetic materials are specifically designed to withstand any weather conditions, are UV-resistant, and can be left outside all year long.

We recommend giving them a quick wash when dirty or every three months with a non-foaming mild detergent.

### STEEL

Steel is used in our indoor collection as well as our outdoor collection, mainly for the legs and frames of our furniture pieces.

For the outdoor pieces, the steel is always galvanized and powder coated to make sure it is protected from all-weather influences.

Clean your armour with a moist towel and some natural soap!
